

Project Overview

Scope

- **Discovery and Research**
We discuss approaches and concepts to find the perfect solution for your needs. Multiple sessions can be held if necessary;
- **Website Design**
I will work on art direction, concept and design. In the first phase I present a mood board or 2-3 screens showing the look and feel of the final product. After the direction has been approved, I design the entire website;
- **Website Development**
After approval of the design, the pages are developed. I will update regularly on the status of development so you always have a clear insight into the progress;
- **Testing & Launch**
Before the website is launched, I will test it to ensure that it is functioning correctly and is free of any bugs. When it's ready, I'll give you the keys to the site, and then help you launch. We will also do a walkthrough of the site and system together, so you can make updates yourself.

Timeline

Estimated completion time of 6-7 weeks.

13. Feb	16. Feb	20. Feb	5. April
Discovery Phase 3-4 days	Design System 3-4 days	Dashboard Design 10 weeks	Handover
